

Scott Luce

Occupation: General Manager, Global Pharmaceutical Injectables, Baxter Healthcare Corporation

Past/Present Affiliations with District 128:

- Native of Libertyville (parents and grandparents are Libertyville High School alumni)
- Alumnus of Libertyville High School (1984), my wife (Kaarn Luce) is also an alumnus (1986)
- Our three children will be entering Libertyville High School in the near future

Community Service, Professional Activities, Awards and Leadership Positions:

- Member of Board of Directors, Northpointe Resources, Zion, IL (2005-2009), a private, not-for-profit provider of developmental disability and behavioral health services.
- Member of Board of Directors, Super Jake Foundation, Gurnee IL (2006-Present), a private, not-for-profit organization whose mission is to fund research to find a cure for neuroblastoma a rare and deadly form of pediatric cancer, and to provide assistance to families with children with cancer.

Other Related Experiences:

I bring 20 years of strategic business experience and insight to the District 128 Foundation for Learning. I am currently employed by Baxter Healthcare Corporation as General Manager for Baxter's Global Pharmaceutical Injectable Business, with revenues of \$1.2 Billion. My goal is to bring the continued focus I have had on strong customer orientation to Board of Trustees as the Foundation works to serve the students in our communities.

Reasons for Serving on the Board of Trustees:

I am proud to serve on the Foundation Board for several reasons. As an alumnus of Libertyville High School, I take great pride in the stature of both Vernon Hills and Libertyville High Schools. I was able to receive an excellent education which built the foundation for my future.

Now, as a parent with three children who will be attending Libertyville High School in the near future, I want to provide the students of our communities with the best opportunities for learning and experiences above and beyond what tax dollars can provide. In the short time in which the Foundation has been established, there have already been key initiatives funded by the Foundation which have provided instrumental learning experiences. This is something we will continue to build upon.
