Reasons for Serving on the Board of Trustees:

Both of my sons have received an outstanding education through District 128. This is an opportunity for me to give back to the District. By serving on this Foundation, I hope to provide the means to enhance the curriculum, provide additional resources for the staff, and open new opportunities for current and future students to learn and grow.

Additional Information:

I am comfortable working with the faculty and within the school environment. I have flexibility within my work schedule to meet with staff during their work day.

I have experience with drafting press releases and promotional writing. Additionally, my husband works in the direct mail business and is available to provide advice on direct marketing.
